SUMMARY

Product designer with 9+ years across fintech, banking, retail and global travel. I work on complex products where customer experience, business rules and operations need to come together clearly, from early product direction and research through to production.

WORK EXPERIENCE

Shulin Studio · Independent Product Designer

JAN 2026 - Present, Taiwan (Remote)

- Lead product and service design engagements for financial services, turning ambiguous business and operational requirements into research-backed product direction, validated workflows and production-ready experiences.

FairPrice Group · Senior Product Designer

2022 - 2025 (Remote), 2020 - 2021, Singapore

- Sole product designer for the 0 → 1 omnichannel payment experience across app, cashier, self-checkout and payment services, bringing loyalty and payment into one connected checkout flow across ~190 stores, supporting ~228K monthly transactions at 98.5% success.
- Defined the product vision and system strategy for the voucher and offer ecosystem, connecting discovery, eligibility and redemption through reusable rules and patterns; product improvements drove +90.9% growth in digital redemption share and ~125K digital redemptions in the final three weeks.
- Built reusable product patterns and decision frameworks across initiatives, helping teams move from one-off campaigns toward a more scalable incentive system and making recurring cross-team alignment 7x faster.

DBS Bank · Senior Product Designer

NOV 2021 - OCT 2022, Singapore

- Led the digitalisation of internal banking workflows across risk, lending and excess management in 6 markets, using regional research and co-creation to separate true market differences from shared needs and shape clearer cross-market workflows.
- Partnered with product, business and operations teams to turn complex policies and operational requirements into product flows and decision points.

Booking.com · UX Designer

NOV 2018 - DEC 2019, UK

- Designed and validated taxi booking experiences across 40+ countries, contributing to a 7% conversion uplift within 2 weeks.
- Built a research-results toolkit that reduced report sharing from 3–5 days to 2 days, making customer evidence easier to use in weekly product decisions.

AJA Creative · UX Designer

DEC 2015 - APR 2018, Taiwan

- Shipped products across music, fintech, e-commerce and government, translating research into product specifications and improving workflows with a custom Sketch plugin.
